

GE VERNOVA

FACTSHEET

CONTROLS SERVICE OFFERING: PARTS MANAGEMENT

We are the best in the business at identifying the parts you need, when you need them.

Overview

GE Vernova is committed to helping you manage the lifespan of your control systems while offering a high return-on-investment lowering the risk and expense of obsolescence. We have a substantial inventory of new parts in our Colorado, USA location. We provide service and expertise that you can depend on, including comprehensive parts support and upgrades to extend the life of your systems.

Parts Support

We offer a wide range of parts and repair services to help keep your assets at an enhanced operating condition. We have an extensive inventory of reclaimed parts for most vintages of GE control systems. These include:

Offerings	Description
New	Genuine OEM-designed and manufactured parts that help preserve the integrity of your assets—includes standard 18-month warranty.
Remanufactured	Purchase of fully reconditioned, tested, and repackaged parts—shipped with a 24-month warranty, no need to return the defective unit.
Exchange	Refurbished parts shipped to customer without having to wait for repair cycle time—certified with a 24-month warranty. Customer returns defective part within 30 days of receiving the exchange part.
Repair and return	Defective parts are sent to us for repair using our quality processes and standards—parts are returned certified with a 24-month warranty.
Test and certification	Affordable validation of circuit board condition — parts inspected, tested, and certified as operating within specification by national standard diagnostic test equipment.
Critical digital assets	Reloading of firmware to ensure cybersecurity of your critical digital assets. Addition of tamper-evident, serialized packing tape on each card to maintain chain of custody through delivery.

System Support

Parts care for new and legacy control systems.

System	Platform
Turbine	Nexus OnCore OC6000e OC4000 Mark I Mark II Mark III & III+ Mark IV Mark V Mark VI Mark VIe
