Background

GE Vernova Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, we strive to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On 10th June 2025, GE Vernova Grid Solutions announced the discontinuation of the manufacturing and supply of Harsh Environmental Option 0 for C264 (Without the Harsh Environmental Coating Option).

On 20th October 2025, this notice was revised in accordance with GE Vernova rebranding guidelines.

On 1st June 2026, the discontinuation of the Harsh Environmental Option 0 for C264 was retracted and the description for Harsh Environmental Option 0 was revised from Without Harsh Environmental Coating to With Harsh Environmental Coating. Harsh Environmental Option 0 for C264 remains available only with Harsh Environmental Coating.

On 28th July 2026, the revision history was updated to correctly reflect GER-5022 for the 1st June 2026 modification.

Support

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing/Supply Notification. After order book closed, a repair service follows for items no longer under warranty subject to availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per offering basis.

For Additional Information

If we can provide assistance with migration to new offerings, please contact us for help. Advice and assistance are also available via: <https://www.gevernova.com/grid-solutions/contact.htm?loc=3> or <https://www.gevernova.com/grid-solutions/automation/protection-control-metering>.
