Background

GE Vernova Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, we strive to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On 24th November 2025, the discontinuation of the manufacturing and supply of Selected Program Chip Sets for D20 was announced.

On 1st June 2026, statuses for the D20 Program Chip Sets listed in rows 1-3 in the table below were confirmed to be Order Book Closed as of 24th November 2025. The order codes for rows 1 & 2 were not modified but the descriptions were amended to add Firmware Type 1 & 2, respectively. The offering was revised to include the discontinuation of the manufacturing and sale of D20 Program Chip Sets With Firmware Type 5: UPC Protocol, subject to availability.

Last-Time Buy Window

Please plan the purchase of any additional quantities or spares that you need. Orders should be placed prior to the last order date shown. Orders will be fulfilled based upon availability and shipments typically occur within three months of last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

Support

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing/Supply Notification. After the last order date elapses, a repair service follows for items no longer under warranty subject to availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per offering basis.
