

- Community Development & Infrastructure Support

Your Company constructed paver block pathways within the campus of Manasu – Mental Health Charity Home, where homeless individuals with mental health challenges are rescued, provided treatment and shelter, and supported until they are either rehabilitated to return home or trained to manage independent living.

- Education & Infrastructure

At Primary School – Machlipura, Baroda, your Company refurbished the entire school flooring and increased the height of the school fence, ensuring a safer environment for children.

At Government Elementary Girls School – Muthurayana, Hosur (Karnataka), the Company constructed toilets to promote sanitation and hygiene, and provided writing tables and chairs to enhance the learning environment.

- Safe Drinking Water

Installed an RO Plant at Government Higher Secondary School – Zuzuvada, Hosur (Karnataka), providing safe and clean drinking water for children.

Installed another RO Plant at the Public Health Centre – Balaji Nagar, Hosur, benefitting the wider community.

At Government Primary School – Sirumathur Village, Padappai, your Company carried out paver block flooring and RO water installation, improving infrastructure and access to safe water.

At Government Primary School – Nariyambakkam, the Company constructed a compound wall for the public water tank to ensure children's safety, installed an RO Plant, completed paver block flooring, and built a canopy for Anganwadi children.

Commitment to Society

Through these initiatives, the Company reaffirms its commitment to sustainable and inclusive growth. By addressing immediate needs such as healthcare and safe drinking water, while simultaneously investing in long-term empowerment through education, sanitation, and infrastructure, the Company is building stronger, healthier, and more resilient communities.
