

DGPDATA INSTALLATION INSTRUCTIONS

1. Boot PC to DOS mode or start DOS in Windows.
2. Make a new DGP-DATA directory on your C: drive.
3. Copy the compressed file dgpdata_.exe to the DGP-DATA directory.
4. Run the dgpdata_.exe file to decompress.
5. Start the program using dgp-data.bat, not the dgpdata.exe file.
