Background

GE Grid Solutions is committed to customer care and the support of our products. As part of this commitment, GE strives to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of manufacturing for older products or design variants.

On October 22nd, 2019, GE Grid Solutions announced the discontinuation of manufacture and sale of **Analog Inputs Option 5 for Reason RA331, RA332, and RA333**.

On May 15th, 2019, the last order date was extended to July 31st, 2019.

On October 31st, 2019, the affected order codes listed below were amended.

This notice does not apply to any other model or option not explicitly listed.

Support Timeframe

GE is committed to supporting our customers' protection and control needs. GE's warranty provision is unaffected by this End-of-Manufacturing Notification. After the published last order dates elapse, a repair service follows subject to material availability, which extends to repairing failed components and modules, but not to providing advanced replacements or a newly-produced finished identical product or new module as a replacement/spare.

Customers should contact GE if they need further information concerning the level of service that is provided on a per product basis.
