### Background

GE Grid Solutions is committed to customer care and the support of our products. As part of this commitment, GE strives to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of manufacturing for older products or design variants.

On 30<sup>th</sup> June 2020, GE Grid Solutions announced that manufacture and sale of **DBT relays** including all models, configurations, mods and accessories, but not retrofit kits, would be discontinued.

**On 15<sup>th</sup> December 2020**, the last order date for **DBT relays** was extended as shown in the table below.

### Last-Time Buy Window

Please plan the purchase of any additional or spare devices that you feel you may need. Orders should be routed to GE prior to the last order date shown. **Orders will be fulfilled based upon availability** and products typically ship within three months of the last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

PRODUCT	LAST ORDER DATE	ALTERNATIVE
DBT	1 <sup>st</sup> September 2022	MVAX31/91, or trip circuit supervision feature in UR, MiCOM, Agile or 8 Series relays

Visit our website at <http://www.gegridsolutions.com/multilin/selector/> for more information about alternative products.

### For Additional Information

If we can provide assistance with migration to new products, please contact us for help. Advice and assistance are also available via: <http://www.gegridsolutions.com/contact.htm?loc=3> or <http://www.gegridsolutions.com/multilin>.
