Background

GE Grid Solutions is committed to customer care and the support of our products. As part of this commitment, GE strives to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of manufacturing for older products or design variants.

On June 30th, 2020, GE Grid Solutions announced the discontinuation of the manufacture and sale of **SWR 212 and 214**, **SWD 212**, and **SWT 212 Ethernet-based switch boards for C264**.

On 27th May 2022, GE revised this excerpt to separate the announcement for these variants from the SWU variants (see separate excerpt for these variants).

This notice does not apply to any other model not explicitly listed.

Last-Time Buy Window

This document outlines the strategy for affected products - within your organization please plan the purchase of any additional or spare devices that you feel you may need. Orders should be routed to us prior to the last order date shown. **Orders will be fulfilled based upon availability** and products typically ship within three months of last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

PRODUCT	LAST ORDER DATE	ALTERNATIVE
