Background

GE Grid Solutions is committed to customer care and the support of our products. As part of this commitment, GE strives to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of manufacturing for older products or design variants.

On September 20th, 2021, GE Grid Solutions announced the discontinuation of the manufacture and sale of **MiCOM Legacy Branding White Livery**.

On January 12th, 2022, the last order date was extended to December 31st 2023, subject to availability.

On June 28th, 2023, the offering description was updated to provide more information about **MiCOM Relays only offered with Legacy Branding in White Livery**

Last-Time Buy Window

Please plan the purchase of any additional quantities or spares that you feel you may need. Orders should be placed prior to the last order date shown. **Orders will be fulfilled based upon availability** and shipments typically occur within three months of the last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

Support

GE's warranty provision is unaffected by this End-of-Manufacturing Notification. After the published last order date elapses, a repair service follows for products no longer under warranty subject to material availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact GE if they need further information concerning the level of service that is provided on a per product basis.

For Additional Information

If we can provide assistance with migration to new products, please contact us for help. Advice and assistance are also available via: <http://www.gegridsolutions.com/contact.htm?loc=3> or <http://www.gegridsolutions.com/multilin>
