## Background

GE Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, GE strives to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On December 12<sup>th</sup>, 2022, GE Grid Solutions announced the discontinuation of the manufacture and sale of **MiCOM Hardware Options B, C and F**. \*Please note that white livery is only available until 31<sup>st</sup> December 2023.

On April 1<sup>st</sup> 2023, GE Grid Solutions revised this notice to **correct a typo** in the title and background section, changing Options B, C and F to **Options 8, C and F** to match the table in the body of the notice. This did not change the scope of the Products impacted by the notice or the table presented below.

On June 28<sup>th</sup> 2023, GE Grid Solutions revised this notice to:

- **restrict the obsolescence plans for Hardware Option 8 to P14x only,**
- **revise the description and alternative for Hardware option C for 4<sup>th</sup> generation MiCOM models,**
- **announce obsolescence plans for Hardware Option E for 4<sup>th</sup> generation MiCOM models** - Note: white livery only available until 31st December 2023, and
- **retract obsolescence plans for Hardware Option F;** Hardware Option F remains available.

## Last-Time Buy Window

Please plan the purchase of any additional quantities or spares that you feel you may need. Orders should be placed prior to the last order date shown. **Orders will be fulfilled based upon availability** and shipments typically occur within three months of the last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

## Support

GE's warranty provision is unaffected by this End-of-Manufacturing Notification. After the published last order date elapses, a repair service follows for products no longer under warranty subject to material availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact GE if they need further information concerning the level of service that is provided on a per product basis.

### **For Additional Information**

If we can provide assistance with migration to new products, please contact us for help. Advice and assistance are also available via: <http://www.gegridsolutions.com/contact.htm?loc=3> or <http://www.gegridsolutions.com/multilin>
