## Background

GE Vernova Grid Solutions is committed to customer care and the support of our products. As part of this commitment, we strive to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of manufacturing for older products or design variants.

On December 12<sup>th</sup>, 2022, GE Grid Solutions announced the discontinuation of the manufacture and sale of the following options: Power Supply Option 5 for D25, D25 with Control Output Options K and S, and Status Board Option 1.

On 28<sup>th</sup> June 2023, GE expanded the scope of this announced to include remainder of the D25 portfolio as shown below.

On 20<sup>th</sup> June 2024, GE amended the alternatives to include G100.

## Last-Time Buy Window

Please plan the purchase of any additional or spare devices that you feel you may need. Orders should be placed prior to the last order date shown. **Orders will be fulfilled based upon availability** and products typically ship within three months of the last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

## Support

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing Notification. After the published last order date elapses, a repair service follows for products no longer under warranty subject to material availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per product basis.

## For Additional Information

If we can provide assistance with migration to new products, please contact us for help. Advice and assistance are also available via:
