Background

GE Grid Solutions is committed to customer care and the support of our products. As part of this commitment, GE strives to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of manufacturing for older products or design variants.

On 30th June 2020, GE Grid Solutions announced the plans to discontinue the manufacture and sale of **MiCOM Proprietary Ethernet Redundancy Options G, H, L and M** including all models, configurations, mods and accessories, but not retrofit kits. This notice does not apply to any other model not explicitly listed.

On 20th September 2021, GE Grid Solutions **extended the last order date** for **MiCOM Proprietary Ethernet Redundancy Options H and M only, subject to availability**.

On 27th May 2022, GE Grid Solutions **extended the last order date** for **MiCOM Proprietary Ethernet Redundancy Options H only, subject to availability**.

On 28th June 2023, GE Grid Solutions **amended the alternatives to clarify that Modification from SHR to PRP/HSR/RSTP architecture is required; for assistance, contact GE for service proposal**.

Last-Time Buy Window

This document outlines the strategy for affected products - within your organization please plan the purchase of any additional or spare devices that you feel you may need. Orders should be routed to us prior to the last order date shown. **Orders will be fulfilled based upon availability** and products typically ship within three months of last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

PRODUCT	LAST ORDER DATE	ALTERNATIVE
MICOM Proprietary Ethernet Redundancy Options: G - Redundant Ethernet Self-Healing Ring, 2 multi-mode fibre ports + Modulated IRIG-B H - Redundant Ethernet Self-Healing Ring, 2 multi-mode fibre ports + Un-modulated IRIG-B L - Redundant Ethernet Dual-Homing Star, 2 multi-mode fibre ports + Modulated IRIG-B M - Redundant Ethernet Dual-Homing Star, 2 multi-mode fibre ports + Modulated IRIG-B	30 th September 2021 30 th September 2023 30 th September 2021 30 th September 2022	MICOM Ethernet Options: R - Redundant Ethernet PRP/HSR/RSTP/Hot Standby, 2 multi-mode fibre ports + Modulated/Un-Modulated IRIG-B S - Redundant Ethernet PRP/HSR/RSTP/Hot Standby, 2 copper ports RJ45 + Modulated/Un-Modulated IRIG-B Modification from SHR to PRP/HSR/RSTP architecture is required; for assistance, contact GE for service proposal
