

Selected In/Vn Options on 4th Generation MiCOM End-of-Manufacturing Notice

Excerpt from GE Publication Number: GER-4964

Issued: 20th June 2024

Copyright © 2024 GE Vernova

Background

GE Vernova Grid Solutions is committed to customer care and the support of our products. As part of this commitment, we strive to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of manufacturing for older products or design variants.

GE Vernova Grid Solutions is discontinuing the manufacture and sale of the **In/Vn Options 0, J, K, M, N, P, R and V on 4th Generation MiCOM** offerings as shown below. Order code listed for offerings and alternative were revised as shown below.

Last-Time Buy Window

Please plan the purchase of any additional or spare devices that you feel you may need. Orders should be placed prior to the last order date shown. **Orders will be fulfilled based upon availability** and products typically ship within three months of the last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

MiCOM In/Vn Option V on 4 th generation MiCOM models Order codes: Px4xxVxxxxxxxxxx	Order book closed on 29 th December 2023	

Support

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing Notification. After the published last order date elapses, a repair service follows for products no longer under warranty subject to material availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per product basis.

For Additional Information

If we can provide assistance with migration to new products, please contact us for help. Advice and assistance are also available via:
