## **Background**

GE Vernova Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, we strive to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On 12<sup>th</sup> December 2024, GE Vernova Grid Solutions announced the discontinuation of the manufacturing and supply of C264 Basic Interface Unit - BUI261S Order code GP0027002. A typo in the alternative shown in the consolidated notice was correct below to include 110-220 Vac.

On 30<sup>th</sup> September 2025, this notice was revised in accordance with GE Vernova rebranding guidelines.

OFFERING	STATUS	ALTERNATIVE

Order code: <b>GP0027002</b>		Order code: GP0027102

## **Support**

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing/Supply Notification. After order book closed, a repair service follows for items no longer under warranty subject to availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per offering basis.

## **For Additional Information**
