Background

GE Vernova Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, we strive to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On 20th December 2010, the discontinuation of the manufacturing and supply of DGP was announced.

On 16th November 2025, this notice was revised in accordance with GE Vernova rebranding guidelines.

OFFERING	STATUS	ALTERNATIVE
DGP Generator Protection Relay	Order Book Closed	G60 Generator Protection Relay

In addition to comprehensive generator protection, the G60 implements the latest technologies providing increased customer benefits. Some of the advanced technologies of the G60 include the following:

- Advanced communications including Modbus, DNP3.0, IEC61850, IEC 60870-5-104, etc.
- Multiple communications ports including, RS485, Copper & Fiber Ethernet
- Advanced diagnostic information including:
 - 1024 Event recorder, 64 samples/cycle Oscillography, 16 Channel data logger

Support

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing/Supply Notification. After order book closed, a repair service follows for items no longer under warranty subject to availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per offering basis.

For Additional Information

If we can provide assistance with migration to new offerings, please contact us for help. Advice and assistance are also available via: <https://www.gevernova.com/grid-solutions/contact.htm?loc=3> or <https://www.gevernova.com/grid-solutions/automation/protection-control-metering>.
