Background

GE Vernova Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, we strive to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On 15th May 2019, the discontinuation of the manufacturing and supply of Software 36 for P141, P142, & P143 was announced.

On 9th December 2019, the last order dates were extended to 31st March 2023, subject to availability.

On 30th June 2020, the alternatives were revised replacing Software 61 with Software 91.

On 10th May 2021, the alternatives were revised to address DNP3oE by replacing Software 52 with Software 61.

On 12th December 2022, the alternatives were revised to include P84 Software AA.

On 4th December 2025, this notice was revised in accordance with GE Vernova rebranding guidelines.

Support

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing/Supply Notification. After the published last order date elapses, a repair service follows for items no longer under warranty subject to availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per offering basis.
