Background

GE Vernova Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, we strive to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On 30th June 2020, the discontinuation of the manufacturing and supply of MiCOM Proprietary Ethernet Redundancy Options G, H, L, & M was announced.

On 20th September 2021, the last order date for MiCOM Proprietary Ethernet Redundancy Options H and M only was extended to 30th September 2022, subject to availability.

On 27th May 2022, the last order date for MiCOM Proprietary Ethernet Redundancy Options H only was extended to 30th September 2023, subject to availability.

On 28th June 2023, the alternatives were amended to clarify that Modification from SHR to PRP/HSR/RSTP architecture is required; for assistance, contact GE Vernova for service proposal.

On 13th November 2025, this notice was revised in accordance with GE Vernova rebranding guidelines.

Last-Time Buy Window

Please plan the purchase of any additional quantities or spares that you need. Orders should be placed prior to the last order date shown. Orders will be fulfilled based upon availability and shipments typically occur within three months of last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

| OFFERING | LAST ORDER DATE | ALTERNATIVE |
|--|--|---|
| MICOM Proprietary Ethernet Redundancy Options: G: Redundant Ethernet Self-Healing Ring, 2 Multi-mode Fibre Ports + Modulated IRIG-B H: Redundant Ethernet Self-Healing Ring, 2 Multi-mode Fibre Ports + Un-modulated IRIG-B L: Redundant Ethernet Dual-Homing Star, 2 Multi-mode Fibre Ports + Modulated IRIG-B M: Redundant Ethernet Dual-Homing Star, 2 Multi-mode Fibre Ports + Modulated IRIG-B | 30th September 2021 30th September 2023 30th September 2021 30th September 2022 | MICOM Ethernet Options: R: Redundant Ethernet PRP/HSR/RSTP/Hot Standby, 2 Multi-mode Fibre Ports + Modulated/Un-Modulated IRIG-B S: Redundant Ethernet PRP/HSR/RSTP/Hot Standby, 2 Copper Ports RJ45 + Modulated/Un-Modulated IRIG-B Modification From SHR To PRP/HSR/RSTP Architecture Is Required; For Assistance, Contact GE Vernova For Service Proposal |

Support

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing/Supply Notification. After the published last order date elapses, a repair service follows for items no longer under warranty subject to availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per offering basis.

For Additional Information

If we can provide assistance with migration to new offerings, please contact us for help. Advice and assistance are also available via: <https://www.gevernova.com/grid-solutions/contact.htm?loc=3> or <https://www.gevernova.com/grid-solutions/automation/protection-control-metering>.
