Background

GE Vernova Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, we strive to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On 10th May 2021, the discontinuation of the manufacturing and supply of Software 53, 54, 56, & 57 for P14D, P14N, & P94V was announced.

On 12th January 2022, the alternatives were revised from Software 62 to Software 64.

On 27th May 2022, the alternatives were revised to include P40 Agile Enhanced.

On 1st December 2025, this notice was revised in accordance with GE Vernova rebranding guidelines.

Support

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing/Supply Notification. After the published last order date elapses, a repair service follows for items no longer under warranty subject to availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per offering basis.
