Background

GE Vernova Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, we strive to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On 28th June 2023, the discontinuation of the manufacturing and supply of Selected Front Panel Options for C264 was announced. Note: At the time of the consolidated notice publication GP0114001M C264 Front Panel HMI GHU301 & GP0116001M C264 Front Panel HMI GHU311 were included in the offering description but were retracted when this excerpt was posted and these offerings remain available for manufacturing and sale, subject to availability.

On 18th December 2023, the offering was revised to include the discontinuation of the manufacturing and sales of C264 Detachable Front Panel With Leds 40TE (GHU310) Black/Silver Livery with a last order date of 31st December 2023. The order code for the alternative C264 Detachable Front Panel With Leds 40TE (GHU310) Black/Silver Livery was revised to correct the 6th digit from N to L.

On 9th February 2024, a typo in the date shown in paragraph 2 was correct to be consistent with the issue date shown at the top of the document.

On 3rd December 2025, this notice was revised in accordance with GE Vernova rebranding guidelines.

Last-Time Buy Window

Please plan the purchase of any additional quantities or spares that you need. Orders should be placed prior to the last order date shown. Orders will be fulfilled based upon availability and shipments typically occur within three months of last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

Support

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing/Supply Notification. After the published last order date elapses, a repair service follows for items no longer under warranty subject to availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per offering basis.

For Additional Information

If we can provide assistance with migration to new offerings, please contact us for help. Advice and assistance are also available via: <https://www.gevernova.com/grid-solutions/contact.htm?loc=3> or <https://www.gevernova.com/grid-solutions/automation/protection-control-metering>.
