

## **Power Finance & Risk - US Thermal Roundtable featuring Susan Flanagan**

Susan Flanagan, President & CEO of GE Energy Financial Services, came together with industry experts in a panel discussion on the US thermal power markets. Susan and the panelists shared their perspectives on the PJM Interconnection capacity auction results for delivery year 2022/2023, the US Federal Energy Regulatory Commission (FERC) over the Minimum Offer Price Rule (MOPR), the 2020 Texas power crisis and the role of market design, and carbon capture and hydrogen gas technology advancements amid growing ESG trends. View the roundtable discussion, [here](#).
