

## **GE Vernova signs agreement to supply 73 MW Kosovo onshore wind project**

- GE Vernova will provide 12 turbines to Çalık Renewables for the developer's first project in Kosovo
- Project will use GE Vernova's 6.1 MW-158m workhorse turbines
- Deal reinforces strong presence of GE Vernova in Kosovo, adding to its 36 onshore wind turbines already in operation there

**SALZBERGEN, Germany (June 18, 2025)** - GE Vernova announced today that it has signed an agreement to supply, service, and commission 12 of its 6.1 MW-158m onshore wind workhorse turbines for Çalık Renewables's Zatriq I & II Wind Farms. The deal, which was booked in the first quarter of 2025, will enable both companies to support Kosovo in its goal of adding significantly more renewable energy by 2030.

Initial deliveries for the project are scheduled from the end of 2025 through the beginning of 2026, and the project is expected to achieve full operation by the second half of next year. When completed, the project is expected to provide enough energy to power the equivalent of approximately 32,000 households.

**Gilan Sabatier, Chief Commercial Officer for GE Vernova's Onshore Wind business in International Markets**, said, "We are pleased to work with Çalık Renewables and Çalık Enerji to bring more wind power online in Kosovo. GE Vernova's Gas Power business has served them for years, and we are pleased to build on that relationship by providing wind turbines as well. As such this deal highlights how GE Vernova's broad portfolio of energy solutions can help our customers drive electrification and decarbonization."

"Kosovo marks a significant milestone in Europe, as we take our first step beyond Türkiye," said **Emre Erdogan** **General Manager of Çalık Renewables**. "This investment reflects our long-term commitment to sustainability and our vision to become an important player in Europe's renewable energy sector. We are pleased to continue our strong collaboration with GE Vernova, particularly as we advance our efforts in renewable energy investments"

GE Vernova's Onshore wind business has a total installed base of approximately 57,000 turbines and nearly 120 GW of installed capacity worldwide. Committed to its customers' success for more than two decades, its product portfolio offers the next-generation high-powered turbines at scale that drives decarbonization through high-quality, affordable, and sustainable renewable energy.

###

\*Note to Editors: GE's 6.1 MW turbine with a 158-meter rotor is what we refer to as the 6.1 MW-158m.

#### **About GE Vernova**

GE Vernova Inc. (NYSE: GEV) is a purpose-built global energy company that includes Power, Wind, and Electrification segments and is supported by its accelerator businesses. Building on over 130 years of experience tackling the world's challenges, GE Vernova is uniquely positioned to help lead the energy transition by continuing to electrify the world while simultaneously working to decarbonize it. GE Vernova helps customers power economies and deliver electricity that is vital to health, safety, security, and improved quality of life. GE Vernova is headquartered in Cambridge, Massachusetts, U.S., with approximately

85,000 employees across approximately 100 countries around the world. Supported by the Company's purpose, The Energy to Change the World, GE Vernova technology helps deliver a more affordable, reliable, sustainable, and secure energy future.

GE Vernova's Wind segment is focused on delivering a suite of wind products and services to help accelerate a new era of energy by harnessing the power of wind. Technologies provided to customers include the next generation high efficiency 3-megawatt onshore wind turbine and the Haliade-X offshore wind turbine platform, as well as maintenance solutions and life extension optionality.

#### **Forward-Looking Statements**

This document contains forward-looking statements – that is, statements related to future events that by their nature address matters that are, to different degrees, uncertain. These forward-looking statements often address GE Vernova's expected future business and financial performance and financial condition, and the expected performance of its products, the impact of its services and the results they may generate or produce, and often contain words such as "expect," "anticipate," "intend," "plan," "believe," "seek," "see," "will," "would," "estimate," "forecast," "target," "preliminary," or "range." Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements about planned and potential transactions, investments or projects and their expected results and the impacts of macroeconomic and market conditions and volatility on the Company's business operations, financial results and financial position and on the global supply chain and world economy.
