GE Vernova completes sale of Onshore Wind blade factory in Poland

- Transaction supports simplification of Wind business
- Frees capital to reinvest in core EU manufacturing facilities

Cambridge, MA (September 5, 2025) - This week, GE Vernova completed the sale of an onshore blades factory in Goleniów near Szczecin, Poland, previously owned by LM Wind Power, to Vestas. This follows the agreement signed on 15 May 2025 and the successful completion of all necessary regulatory approvals.

LM Wind Power CEO, Hanif Mashal, said: “We are pleased to complete the transfer of this facility to Vestas. This transaction enables us to simplify our business and reinvest the capital into core EU manufacturing facilities producing GE Vernova wind products to better serve our loyal customer base in the region.”

GE Vernova has a total installed base of approximately 57,000 turbines and nearly 120 GW of installed capacity worldwide. Committed to its customers' success for more than two decades, its product portfolio offers the next-generation high-powered turbines at scale that drives decarbonization through high-quality, affordable, and sustainable renewable energy.
