

## **GE Vernova enters agreement with PPC Renewables in Romania**

- Onshore wind farm will use 14 GE Vernova 6.1 MW-158m workhorse turbines
- Second contract with PPC Renewables will give GE Vernova an installed base of more than 800 MW of wind power in Romania

**BUCHAREST, Romania (December 11, 2025) 2025** - GE Vernova Inc. (NYSE: GEV) announced today that it has signed an agreement with Public Power Corporation Renewables (PPC R) to supply, install and commission 14 of its 6.1 MW-158m\* turbines for a wind farm in Vaslui county, Romania. The new agreement builds on an earlier deal to supply 23 of GE Vernova's 6.1 MW-158m turbines that was [announced in September 2024](#). It also follows [an announcement last week](#) that the company will provide Greenvolt Power 42 of its 6.1 MW-158m onshore wind turbines to power the Gurbanesti wind farm in Călărași county in Romania.

The latest deal, which was booked in the second quarter of 2025, expands the presence of GE Vernova in Romania by adding 85 MW to the company's existing onshore wind installed base in the country of more than 800 MW.

When completed, the project is expected to provide enough energy to power the equivalent of approximately 38,000 households.

**[Gilan Sabatier](#), Chief Commercial Officer for GE Vernova's Onshore Wind business in International Markets**, said, "We are pleased to deepen our collaboration with PPC Renewables in Romania, strengthening our commitment to advancing sustainable energy solutions. This agreement not only reinforces GE Vernova's presence in the region but also exemplifies our dedication to delivering workhorse wind turbines that will help power thousands of homes and contribute to Romania's renewable energy goals."

GE Vernova has a total installed base of approximately 57,000 turbines and nearly 120 GW of installed capacity worldwide. Committed to its customers' success for more than two decades, its product portfolio offers the next-generation high-powered turbines at scale that drives decarbonization through high-quality, affordable, and sustainable renewable energy.

###

\*Note to Editors: GE's 6.1 MW turbine with a 158-meter rotor is what we refer to as the 6.1 MW-158m.

### **About GE Vernova**

GE Vernova Inc. (NYSE: GEV) is a purpose-built global energy company that includes Power, Wind, and Electrification segments and is supported by its accelerator businesses. Building on over 130 years of experience tackling the world's challenges, GE Vernova is uniquely positioned to help lead the energy transition by continuing to electrify the world while simultaneously working to decarbonize it. GE Vernova helps customers power economies and deliver electricity that is vital to health, safety, security, and improved quality of life. GE Vernova is headquartered in Cambridge, Massachusetts, U.S., with approximately 85,000 employees across approximately 100 countries around the world. Supported by the Company's purpose, The Energy to Change the World, GE Vernova technology helps deliver a more affordable, reliable, sustainable, and secure energy future.

GE Vernova’s Wind segment is focused on delivering a suite of wind products and services to help accelerate a new era of energy by harnessing the power of wind. Technologies provided to customers include the next generation high efficiency 3-megawatt onshore wind turbine and the Haliade-X offshore wind turbine platform, as well as maintenance solutions and life extension optionality.

### **Forward-Looking Statements**

This document contains forward-looking statements – that is, statements related to future events that by their nature address matters that are, to different degrees, uncertain. These forward-looking statements often address GE Vernova’s expected future business and financial performance and financial condition, and the expected performance of its products, the impact of its services and the results they may generate or produce, and often contain words such as “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “see,” “will,” “would,” “estimate,” “forecast,” “target,” “preliminary,” or “range.” Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements about planned and potential transactions, investments or projects and their expected results and the impacts of macroeconomic and market conditions and volatility on the Company’s business operations, financial results and financial position and on the global supply chain and world economy.
