GE T&D India Ltd. secures multi-crore orders from Power Grid Corporation of India for grid modernization projects

New Delhi, Feb 27, 2024: GE T&D India Ltd. (NSE:GE T&D Ltd.), a part of GE Vernova's Grid Solutions business, has secured orders worth approximately INR 370 crores from Power Grid Corporation of India (PGCIL) for the supply of 765 kV Shunt Reactors for PGCIL's various transmission system projects in India. These projects aim to facilitate the integration of renewable energy into the national electricity grid and enhance electricity transmission within the country, including Rajasthan and Karnataka.

Sandeep Zanzaria, MD & CEO of GE T&D India, said, "We are delighted to support PGCIL in the modernization of India's grid infrastructure through the supply of locally manufactured equipment in alignment with the government's Make in India initiative. To date, we have successfully manufactured and supplied over 600 transformers and reactors of 765 kV class from our Power Transformer facility in Vadodara, Gujarat, to customers in India and abroad, solidifying our position as a leading manufacturer of such equipment in India."

GE T&D India will be responsible for providing the complete equipment package, including design, engineering, manufacturing, testing, erection and commissioning of the 765 kV class reactors at the designated transmission substation sites. The reactors are scheduled for delivery in FY25-26.

GE T&D India's commitment to the Make in India initiative is demonstrated through the supply of critical grid products from its advanced manufacturing facilities located in Padappai, Hosur, Vadodara, Noida, and Pallavaram.

About GE T&D India Limited

With over 100 years of presence in India, GE T&D India is a leading player in the Power Transmission & Distribution business - A product portfolio ranging from Medium Voltage to Ultra High Voltage (1200 kV) for Power Generation, Transmission and Distribution, Industry and Infrastructure markets.

GE T&D India has a predominant presence in all stages of the power supply chain and offers a wide range of products that include 'Made in India' Power Transformers, Circuit Breakers, Gas Insulated Switchgears, Instrument Transformers, Substation Automation Equipment. GE T&D also offers Digital Software Solutions, Turnkey Solutions for Substation Engineering & Construction, Flexible AC Transmission Systems, High Voltage DC & Services suite of offerings. With 5 world class manufacturing facilities in India, GE T&D India is future ready to meet the growing demands for equipments and services. GE is focused towards introducing Green and Digital Solutions aiming towards smarter and environment friendly Indian Grid. www.ge.com/in/ge-td-india-limited
