Independent Auditor's Report

To the Members of

GE Power Boilers Services Limited

Report on the Audit of the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of GE Power Boilers Services Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2018, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the state of affairs, profit or loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at 31 March 2018, its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the Ind AS financial statements, which indicates that the Company has accumulated losses and its net worth has been fully eroded. The Company has incurred a net loss during the previous years and, the Company's liabilities exceeded its total assets as at the balance sheet date. As stated in Note 1, these events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. However, based on reasons fully explained in the said note, the Management of the Company considers it appropriate to prepare its Ind AS financial statements for the year ended 31 March 2018 on a going concern basis.

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
- e) The going concern matter described under “Material Uncertainty Related to Going Concern” paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.
- f) On the basis of the written representations received from the directors as on 31 March 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2018 from being appointed as a director in terms of Section 164(2) of the Act.
- g) With respect to the adequacy of the internal financial controls with reference to Ind AS financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements- refer note 20 to the Ind AS financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company; and
 - iv. The disclosures in the Ind AS financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made since they do not pertain to the financial year ended 31 March 2018. Further, the Company did not have any holdings or dealings in Specified Bank Notes during the period 8 November 2016 to 30 December 2016.

Annexure A referred to in the Independent Auditor's Report to the Members of GE Power Boilers Services Limited on the Ind AS financial statements for the year ended 31 March 2018

We report that:

- (i) (a) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets (property, plant and equipments).
- (b) According to the information and explanations given to us, the fixed assets are physically verified by the management every year, which, in our opinion, is reasonable having regard to the size of the Company and nature of its assets. In accordance with this programme, all the fixed assets have been physically verified by the management during the year. As informed to us, no material discrepancies were observed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of the immovable properties are held in the name of the Company.
- (ii) The Company does not hold any inventory. Accordingly, para 3 (ii) of the Order is not applicable.
- (iii) According to the information and explanations given to us, the Company, has not granted any loans, secured or unsecured, to companies or other parties covered in the register maintained under Section 189 of the Act. Further, there are no firms and limited liability partnerships covered in the register required under Section 189 of the Act. Accordingly, para 3 (iii) of the Order is not applicable.
- (iv) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the provisions of Section 185 and 186 of the Act are not applicable to the Company. Accordingly, paragraph 3(iv) of the Order is not applicable.
- (v) According to the information and explanations given to us, the Company has not accepted any deposits covered under Section 73 to 76 of the Act. Accordingly, para 3 (v) of the Order is not applicable.
- (vi) The Central Government has not prescribed maintenance of cost records under sub section (1) of Section 148 of Act since the Company is not carrying any operations. Accordingly, para 3 (vi) of the Order is not applicable.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Income Tax and other statutory dues, to the extent applicable, have been regularly deposited with appropriate authorities during the year. As explained to us, the Company did not have any dues on account of Provident Fund, Employees' State Insurance, Sales tax, Service tax, Duty of Customs, Goods and Service tax, Duty of Excise, Value Added Tax and Cess.

According to the information and explanations given to us, there are no undisputed amounts payable in respect of Income Tax and other material statutory dues, to the extent applicable, that were in arrear as at 31 March 2018 for a period of more than six months from the date they became payable.

- (b) Accordingly to the information and explanations given to us, there are no dues in respect of Income-tax which have not been deposited with appropriate authorities on account of any dispute.
- (viii) According to the information and explanations given to us, the Company does not have any loans or borrowings from any financial institutions, banks, Government or debenture holders during the year. Accordingly, paragraph 3(viii) of the order is not applicable.
- (ix) According to the information and explanations given to us, the Company did not raise any money by way of initial public offer or further public offer (including debt instrument) and any term loans during the year. Accordingly, paragraph 3(ix) of the Order is not applicable.
- (x) According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year.
- (xi) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not paid/ provided for any managerial remuneration during the year. Accordingly, paragraph 3(xi) of the Order is not applicable.
- (xii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, paragraph 3(xii) of the Order is not applicable.
- (xiii) According to information and explanations given to us and on the basis of our examination of the records of the Company, all transactions with the related parties are in compliance with section 177 and 188 of the Act where applicable and the details have been disclosed in the Ind AS financial statements, as required by the applicable accounting standards.
- (xiv) According to information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable.
- (xv) According to information and explanations given to us, the Company has not entered into any non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable.
- (xvi) According to information and explanations given to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B referred in the Independent Auditor's Report to the Members of GE Power Boilers Services Limited on the Ind AS financial statements for the year ended 31 March 2018

Report on the Internal Financial Controls under Clause (i) of Sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of GE Power Boilers Services Private Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statement was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of internal financial controls with reference to financial statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial statements and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance

regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of internal financial controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

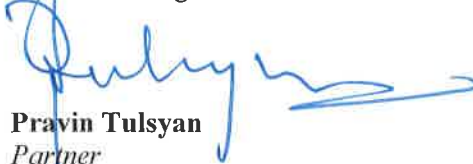

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2018, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes to the financial statements for the year ended 31 March 2018

1. General information

GE Power Boilers Services Limited (formerly known as Alstom Power Boilers Services Limited) ('GEPBSL' or 'the Company') is a wholly owned subsidiary of GE Power India Limited ('GEPIL') (formerly known as ALSTOM India Limited) and is primarily engaged in providing various services relating to different types of boilers, catering to the needs of independent power producers, public utility companies and other industrial users.

Operational outlook

During the financial year ended 31 March 2018, the Company had a total income of Rs. 3078 thousands (31 March 2017: Rs 1,729 thousands) along with profit after tax of Rs. 494 thousands (31 March 2017: loss after tax Rs 27,452 thousands). As at 31 March 2018, the Company's accumulated losses of Rs. 33,504 thousands have eroded its paid up equity capital of Rs. 3,400 thousands. GEPIL, the immediate holding company, has committed to provide continued operational and financial support to the Company. Accordingly, the accompanying financial statements have been prepared on a going concern basis.

2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. The accounting policies adopted are consistent with those of the previous financial year except for adoption of the following amendment in the Ind AS 7 effective from the current year. The said amendment requires the Company to provide disclosures which will enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. The adoption of the above amendment to the Standard does not have any significant impact on the financial position or performance of the Company.

2.1 Basis of preparation of financial statements

2.1.1 Statement of compliance

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The financial statements have been authorized for issue by the Company's Board of Directors on 27 April 2018.

Effective 1 April 2015, the Company had transitioned to Ind AS while the Ind AS financial statements were being prepared in accordance with the Companies (Accounting Standards) Rules, 2006 (previous GAAP) till 31 March 2016 and the transition was carried out in accordance of Ind AS 101 "First time adoption of Indian Accounting Standards". While carrying out transition, in addition to the mandatory exemptions, the Company had elected to certain exemption which are listed as below:

a) The Company had opted to continue with the carrying value for all of its property, plant and equipment and intangible assets as recognised in the standalone Ind AS financial statements prepared under previous GAAP and use the same as deemed cost in the financial statement as at the transition date.

Current versus non-current classification

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification in accordance with Schedule III, Division II of Companies Act, 2013 notified by the Ministry of Corporate Affairs.

An asset is classified as current when it is: a) Expected to be realised or intended to be sold or consumed in normal operating cycle, b) Held primarily for the purpose of trading, c) Expected to be realised within twelve months after the reporting period, or d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: a) It is expected to be settled in normal operating cycle, b) It is held primarily for the purpose of trading, c) It is due to be settled within twelve months after the reporting period, or d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. All other liabilities are classified as non-current.

Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities, except for projects business. The projects business comprises long-term contracts which have an operating cycle exceeding one year. For classification of current assets and liabilities related to projects business, the Company uses the duration of the contract as its operating cycle.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Companies (Accounts) Rules 2014.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.1.2 Basis of measurement

The financial statements have been prepared on the historical cost basis except certain financial assets and liabilities that are measured at fair value or amortised value.

A handwritten signature in blue ink, appearing to be 'B. S. R.'.

A handwritten signature in blue ink, appearing to be 'S. R.'.

GE Power Boilers Services Limited (formerly known as Alstom Power Boilers Services Limited)

CIN : U31200WB1947PLC015280

Notes to the financial statements for the year ended 31 March 2018

2.1.3 Functional currency

The financial statements are presented in Indian Rupees (Rupees or INR), which is the Company's functional and presentation currency and all amounts are rounded to the nearest thousands, except as stated otherwise.

2.1.4 Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Assumptions and estimation uncertainties

Assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment recognised in the financial statements are as under :

- measurement of useful life, residual values and impairment of property, plant and equipment,
- recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources,
- impairment of financial assets and non financial assets,

2.1.5 Measurement of fair values

A number of the accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable -inputs).

The Company has an established control framework with respect to the measurement of fair values. This includes a finance team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer.

The finance team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, is used to measure fair values, then the finance team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Company's Board of Directors.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the respective notes.

2.2 Property, plant and equipment and depreciation

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes purchase price including import duties and non refundable purchase taxes after deducting trade discounts and rebates, if any, directly attributable cost of bringing the item to its location and condition for its intended use.

Gains or losses arising from derecognition of property, plant and equipment are measured as the differences between the net disposal proceeds and the carrying amount of the property, plant and equipment and are recognized in the statement of profit and loss when the property, plant and equipment is derecognized.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred.

The cost of property, plant and equipment not ready for their intended use is recorded as capital work-in-progress before such date. Cost of construction that relate directly to specific property, plant and equipment and that are attributable to construction activity in general and can be allocated to specific property, plant and equipment are included in capital work-in-progress.

Depreciation methods, estimated useful lives and residual value:

Property, plant and equipment, other than land, are depreciated on a pro-rata basis on Straight Line Method (SLM) using the rates arrived based on the useful lives of assets specified in Part C of Schedule II thereto of the Companies Act, 2013 as follows :

Asset category	Useful life in years
Other buildings	60

Based on technical evaluation , the management believes that the residual value is Nil.

Asset's residual values and useful lives are reviewed at each financial year end, considering the physical condition of the assets and benchmarking analysis or whenever there are indicators for review and adjusted prospectively.

Asset held for sale

Non current assets or disposal groups are classified as held for sale if their carrying amount is intended to be recovered principally through sale rather than through continuing use. The condition for classification of held for sale is met when the non current asset or the disposal group is available for immediate sale and the same is highly probable of being completed within one year from the date of classification as held for sale. Non current assets or disposal groups held for sale are measured at the lower of carrying amount and fair value less cost to sell.

A gain or loss of the non-current asset is recognised at the date of de-recognition. Once classified as held-for-sale, property, plant and equipment are no longer amortised or depreciated.

2.3 Impairment of non financial assets

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (property, plant and equipment) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's (CGU) fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows using a pre-tax discount rate that reflects current market assessment of the time value of money and risk specific to the CGU (or the asset) expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

2.4 Cash and cash equivalents

In the cash flow statement, cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.5 Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in statement of profit and loss.

2.6 Financial instruments

a. Recognition and initial measurement

Trade receivables issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Two handwritten signatures in blue ink, one on the left and one on the right, appearing to be official approvals.

b. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- FVOCI (fair value through other comprehensive income);
- FVTPL (fair value through statement of profit and loss)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest.

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in statement of profit and loss.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in statement of profit and loss.

A handwritten signature in blue ink, appearing to be "S. B. Singh".

A handwritten signature in blue ink, appearing to be "S. B. Singh".

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in statement of profit and loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

c. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in statement of profit and loss.

d. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

2.7 Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for applicable jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current period tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current period tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current period tax and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

2.8 Other income

Interest income is recognised using the effective interest method. The 'effective interest method' is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset.

2.9 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

2.10 Provisions and contingent liabilities/ assets

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

Contingencies

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Contingent assets are not disclosed in the financial statements.

2.11 Recent accounting pronouncements

Applicable standards issued but not yet effective

MCA vide its notification dated 28 March 2018, notified Ind AS 115, "Revenue from Contracts with Customers". Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition standard Ind AS 18 Revenue, Ind AS 11 Construction Contracts when it becomes effective.

The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligation in contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

The new revenue recognition standard is effective from 1 April 2018. The Company has completed its evaluation of the possible impact of Ind AS 115 and does not expect the impact of the adoption of the new standard to be material.

MCA vide its notification dated 28 March 2018, notified Appendix B, Foreign currency transactions and advance consideration to Ind AS 21. The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. Appendix B is effective from 1 April 2018. The Company does not expect the impact of the adoption of the new amendment to be material.

c) Face value per share (in rupees)	100	100
d) Basic and diluted earnings (in rupees) per share	15	(807)

(Handwritten signatures)

22. Financial instruments and fair value measurements - accounting classification

A. Accounting classifications and fair values

The fair value of financial assets and liabilities are included at the amount at which the instrument could be exchanged in current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair value :

- 1 Fair valuation of financial assets and liabilities with short term maturities is considered as approximate to respective carrying amount due to the short term maturities of these instruments.
- 2 Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for the expected losses of these receivables.

The following tables shows the carrying amounts and fair value of financial assets and financial liabilities, including their levels in the fair value hierarchy.

For fair value hierarchy refer to note 2.1.5.

	Notes	Carrying	Fair Value		
		As at 31 March 2018	Level 1	Level 2	Level 3
Financial assets at fair value at amortised cost					
Current assets					
Cash and cash equivalents	5	3,396	-	-	-
Total		3,396	-	-	-
Financial liabilities at fair value at amortised cost					
Current liabilities					
Borrowings	11	31,500	-	-	-
Trade payables	12	383	-	-	-
Total		31,883	-	-	-

	Notes	Carrying	Fair Value		
		As at 31 March 2017	Level 1	Level 2	Level 3
Financial assets at fair value at amortised cost					
Current assets					
Cash and cash equivalents	5	21,730	-	-	-
Other current financial assets					
Interest accrued on deposit with banks	6	41	-	-	-
Total		21,771	-	-	-
Financial liabilities at fair value at amortised cost					
Current liabilities					
Borrowings	11	35,000	-	-	-
Trade payables	12	2,662	-	-	-
Total		37,662	-	-	-

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

23. Financial risk management

Financial risk relates to Company's ability to meet financial obligations and mitigate exposure to broad market risks, including volatility in foreign currency exchange rates and interest rates and commodity prices; credit risk; and liquidity risk, including risk related to our credit ratings and our availability and cost of funding. Credit risk is the risk of financial loss arising from a customer or counterparty failure to meet its contractual obligations. The Company face credit risk in our industrial businesses, as well as in derivative financial instruments activities. Liquidity risk refers to the potential inability to meet contractual or contingent financial obligations (whether on- or off-balance sheet) as they arise, and could potentially impact Company financial condition or overall safety and soundness.

(A) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the receivables from customers; loans and deposits.

The carrying amounts of financial assets represent the maximum credit risk exposure.

The allowance for lifetime expected credit loss on customer and other balances for the year ended 31 March 2018 and 31 March 2017 is insignificant and hence the same has not been recognised.

(B) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include contractual interest payments and exclude the impact of netting agreements.

Contractual maturities of financial liabilities:

31 March 2018	Less than 1 year	More than 1 year	Total
Non-derivatives			
Borrowings	31,500	-	31,500
Trade payables	383	-	383
Total non-derivative liabilities	31,883	-	31,883

31 March 2017	Less than 1 year	More than 1 year	Total
Non-derivatives			
Borrowings	35,000	-	35,000
Trade payables	2,662	-	2,662
Total non-derivative liabilities	37,662	-	37,662

GEPIL, the holding company, has committed to provide continued operational and financial support to the Company.

(C) Market risk

Market risk is the risk of loss of future earnings, fair value or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

There are no significant market risks perceived by the Company as on 31 March 2018 and 31 March 2017.

24. Capital management

The Company is having Rs. 31,500 thousands borrowings as on 31 March 2018 (31 March 2017 : Rs.35,000). The gearing ratio is as follows:

	As at 31 March 2018	As at 31 March 2017
Net debt	28,104	13,270
Total equity	(30,104)	(30,598)
Net debt to equity ratio	(0.93)	(0.43)
